Large-Print Keyboards

ZoomText Large-Print Keyboard (for the PC)

Designed for anyone who struggles to see the lettering on their keyboard, the ZoomText Large-Print Keyboard makes typing faster and easier than ever before.

Each key and button label is easy to see, even in

low light, thanks to its 36-point text and high-contrast color schemes.

Plus, you have quick one-touch access to ZoomText's main features.

The keyboard is available in a variety of languages. Learn more at w ww.a i sq ua red .co m/Key boa rd.

Mac Large-Print Keyboard Solutions

Minimize your typing errors and reduce youi eyestrain with these high quality Apple keyboards, enhanced with high contrast markings that will last and last. Choose from three high contrast color schemes.

Already have an Apple keyboard? Our Large-Print Keyboard Skins are designed to convert your current keyboard to large print for easy viewing, plus it protects your keyboard from liquids, dust, and debris.

Learn more at   www.aisquared.com/MacKeyboard.

ZoomText Camera

The portable and affordable CCTV alternative

This ZoomText 10 add-on allows you to magnify printed items and other objects right on your computer screen - including bills, magazines, photographs, medicine labels, craft items, and more - giving you a portable and affordable CCTV alternative.

We've custom designed two camera stands that perfectly complement the included Logitech HD webcam, making positioning a breeze. Choose between clamp or tabletop designs - they are so lightweight and portable, you can take them with you wherever you go.

The stands feature a detachable arm that quickly lifts out of the base for maximum portability. The arm

fits into either stand; perfect if you purchase the package that includes both stands! Plus, the arm conveniently swivels out of the way when you need extra desk space.

The ZoomText Camera package comes completely pre-assembled. Just take it out of the box, plug in the USB cord, and you're good to go.

ZoomText ImageReader

Low vision access to printed text

ZoomText ImageReader allows you to capture and read text from all types of printed materials. Place a document, book or other printed item under the included HD document camera and press the capture command. A few seconds later, the text appears in a choice of large, high-contrast fonts and is read aloud in natural-sounding voices that are pleasant to listen to.

5REBHSB 1: Welcome to ZoomText ImageReader

ZoomText ImageReader is an important productivity tool for the visually impaired that allows you to capture and read text from all types

ImageReader can also capture and read text from image files, the Windows Clipboard, or from an area on your screen; perfect for reading graphical text from electronic documents and webpages.

ImageReader's unique document positioning mat allows for quick and accurate positioning of items in the camera's view. The mat folds for compact storage and transporting, but instantly lies flat when unfolded onto your table or work surface.

Localizations will be coming soon! Learn more at   www.aisquared.com/ImageReader.
